

Brandon Simmonds

I am currently studying Electrical Insulation level 2 at Burslem Campus and will be running for the position of Burslem Vice President.

I have applied for this to create more opportunities to represent my course and Burslem Campus in general.

In my spare time and on class breaks I enjoy spending time in the common room playing table tennis I also take part in some enrichment clubs at lunch times.

If people vote for me I will try to get us new equipment and update things on a regular basis and look at how we can all work together.
