

VOTE FOR:
MIRIAM (MIDGE) CROSS
FOR: **VICE PRESIDENT - BURSLEM**

I am currently studying Level 2 Plumbing and I want to make a change in college, especially for students on trade courses!

I always listen to people, I am considerate, determined and an approachable individual. I am also a Peer Mentor.

If I am elected Vice President, I will make sure all learners voices are heard. I will make sure they feel welcomed and are comfortable around college and I already do this in my role as a peer mentor. I am passionate about helping learners in the college and about the college in general as I love being a student at this campus.

The difference I want to make in college include, ensuring the workshops have good work areas and we have better tools. I want to bring about better enrichment clubs such as having on site gym equipment that learners can use. I will try my best to bring bacon and hash browns to the free breakfast. I will also work towards having a range of food from every culture more often. The Burslem campus also needs a place where Muslim learners can carry out ablutions I aim to help to ensure that this facility is available!

I will improve all learners' experiences at college!!
