

VOTE FOR ANNA-MARIE OAKES FOR PRESIDENT.

I am studying Business and I want to make a change in college!

I am often told that I am friendly, considerate, that I listen to people and that I am approachable. People have also often described me as outgoing, compassionate and a natural leader. I am also trustworthy, respectful and dedicated for better experiences at college.

If I was President, I will make sure that all learners voices are heard. I will also make sure that they feel welcomed and they are comfortable around college. I also want to make sure that everyone feels included no matter their race, disability, age, gender, relationship status or religion. I want to make sure that everyone is safe and in an environment that will make them feel as though they can talk to anyone and not be afraid.

In the future, I think that the college should have a cooking club. In this club, the student or teachers can either bring money or their own ingredients to cook or bake something that is voted for the two out of three club days that it is on. On the third day, it would be things like learning the nutritional values of the things they made during the other two days and would learn about popular dishes from around the world. It will also be the day of voting what is made.

I will improve all learners' experiences at college.
