

## VOTE FOR DAMION ANTHONY-JAY ROBINSON FOR VICE PRESIDENT

I am studying Business, and I want to have a positive impact on college!

I always listen to people, and I am a considerate and determined person. I am also very approachable and trustworthy and I would always value the opinions of my peers.

If I was Vice President, I would make sure all learners voices are heard when a student comes to me voicing their concern or

wanting something changed, I will make a note what they're saying and after I finish talking to the student I will go to the correct member of staff. I am passionate about inclusivity and ensuring that the perspectives of all learners continue to be heard. I will ensure that all learners feel welcome and comfortable during their time at college.

In the future, I would like to set up a Card-Game Club in the Students' Union. I have noticed that lots of my peers enjoy playing new card games and I think it would be a good way for learners to make new friends! I am hoping that more experienced players will be able to support new learners joining the club!

Another idea I had in mind, was introducing lockers for all learners so that items can be kept in safe spaces during break times!
