

Eli Bray For **President**

I am a Level 2 Sports Coaching Student. I am a keen sportsman who particularly enjoys playing Rugby and I have recently completed the Challenge South Africa 2025 Programme.

I am a confident, reliable, enthusiastic and supportive individual who is committed to making the college an even more friendly and inclusive place for all of our learners, than it already is.

As a President, I would campaign for an increase in support with accessing a wider range of enrichment activities across all areas of the college and covering all interests! I would also like to empower students with good attendance in their Maths, English and course subjects to receive rewards for their dedication to their studies.

I am committed to ensuring that the college continues to be an inclusive and supportive place for everyone. I would also like to empower the voice of students across all subject areas of the college.
